POS Solutions for Tomorrow

6000 FF SERIES

DESCRIPTION

The 6000FF (Fast Food) is the most powerful and adaptable POS Terminal we produce for the Fast Food industry. The 6000 series durability will provide years of performance and the Flash ROM technology will enable merchants to upgrade software without most costly hardware upgrades. Ideally suited for fast food restaurants, and cafeterias.

The 6000 series of Terminals have the capability for inter-register communications (IRC), as well as direct or remote PC communications. They can host a full line of RS232 I/O peripheral equipment including kitchen printers, scales, coin dispensers, and cash card readers, as well as optional mag stripe readers.

HEAVY DUTY PERFORMANCE FEATURES

- ❖ Top of the line Epson™ M825 two station "quick release" printer 1 line validation
- ❖ Heavy duty keyboard backing with dual spring activated key switches
- ❖ Futaba™ two line, sixteen character alphanumeric operator and customer display
